Unless there are exceptional (medical) circumstances, players must play (and pay) 36 weeks (at £5 per week) to be eligible for a £50 bonus payment.

Players must play at least 17 weeks to receive all of their monies back. Players playing less than 17 weeks are only eligible to receive half of the money they have paid in.

Football cards (x 3) are offered every week to help boost the prize fund. Players are expected to have at least one go on all cards each week.

Players are expected to be able to chalk (as stated on Round Robin Result Sheets). Players who finish 2nd or 3rd in their groups are expected to chalk for last 8 round games. Players who refuse to chalk will lose all points on the night and be fined £10 from their overall winnings. (This fine will be awarded to whoever chinks for them.)

Shot Out Money is optional. Players taking part should be aware that if this money remains unclaimed at the end of the league, it will roll over to the next one. For example, new players joining the 2018 league are not eligible to receive this roll over money. Players who played in 2017 will receive a £100 bonus should they win the Shot Out Money in 2018 (unless all 2017 money is paid out.) For players taking part in this, £5 is awarded for the highest shot out on the night.

All monies are paid out when the league finishes at Christmas.
